SNOWMAKING WATER WITHDRAWAL RULES

**SUMMARY
DESCRIPTION
OF PERMIT**

The snowmaking rules define the criteria used to determine acceptable conservation flows when the Agency evaluates proposals for new or expanded snowmaking systems. The rules set forth annual water use reporting requirements, and, through a separate guidance document, information to be included in alternatives analyses.

**EXAMPLE OF
REGULATED
ACTIVITY**

Development of a new water intake for snowmaking, or infrastructure changes to an existing snowmaking system that trigger regulatory review under the programs listed below.
